## Caution: Bumps Ahead!

With all the rain we've had potholes are in abundance. Now that the rivers are receding, road crews are scrambling to get holes, small crevices, and mini Grand Canyons filled in before small Volkswagens are lost in the new craters. No matter how hard the road crews try, there will always be more sections of road to fix. Maybe they enjoy the job security.

Like roads, our lives will have bumps along the way. Some problems will be like small potholes that just need to be addressed quickly. Other problems may feel like huge voids reaching their tentacles into every area of our lives. Here are some suggestions to help navigate the bumps in the road of life:

**Look for the bumps.** You know that sooner or later they will develop, so be on the lookout and don't get caught off guard.

**Our choices may cause the bumps.** Unfortunately, our bad decisions may cause wincing, pain, and frustration as those bumps are hit head-on.

**Other people's choices may cause the bumps.** We don't live our lives in a vacuum. The choices others make will affect us for better or worse.

**Time and chance happen to all men.** Some bumps are there, even though you don't know how they got there (Ecc 9:11). Watch out!

**Remember.** The most important thing is not who you are and how you navigate those bumps, but whose you are and that He can help you navigate them – Mt 7:21.
